- Improves animal health and comfort
- Clean living environment

Aspects of hygiene powder

Moisture absorption

- the most important aim of a hygiene powder is to create a dry living environment, so that microorganisms have no chance to develop. MS DryCare has a very high moisture absorption of >200%

Good distribution

- MS DryCare is easy to spread out but does not disperse in the air, so the product covers the area well and does not create dust.

An attractive smell

- plays a role in a pleasant living environment and it can smother or neutralise unpleasant smells. MS DryCare has a pleasant fragrance

pH Neutral

- MS DryCare is pH neutral to prevent irritation.
