

MS TOPFOAM POWER

MS TopFoam Power is a very strong foam cleaner with >60 min contact time and the most powerful cleaning capabilities of the TopFoam range. This foam will effectively remove even the most tenacious dirt.

- Effective removal of heavy contamination
- Cleans a large surface area
- Foam actively penetrates dirt
- Excellent adhesion to vertical surfaces

Immediately after emptying

After pressure cleaning

20.000.000
pathogens/cm²

Spray clean with cold water

After cleaning

100.000
pathogens/cm²

Spray clean with MS TopFoam Power

After disinfection

<500
pathogens/cm²

Disinfect with a MS MegaDes product

Steps

1

Thorough preparation. Remove all materials and equipment (manure, drinkers, feeders, etc.) from the housing unit.

2

Coat all surfaces in the housing unit (and associated materials) with **MS TopFoam Power**. In cases of heavy fouling, pre-wet the surfaces.

3

Spray the housing unit (and all associated materials) clean using a high-pressure jet and then rinse with low-pressure water.

4

Every 6 months remove heavy stains containing iron, manganese and limescale deposits with MS TopFoam LC Acid.

5

Disinfect the housing unit with products from MS MegaDes range, to kill all remaining microorganisms.

6

Rinse the housing unit (and all associated materials) with clean water and allow it to dry.

7

A low-pathogen environment is created. The housing unit is ready for use again.
